

Corporate social responsibility policy

At **APLICACIONES TECNOLÓGICAS S.A.**, we are committed to an active and voluntary contribution to social, economic and environmental improvement.

That is why we seek excellence within our company, paying special attention to people and their working conditions, as well as the quality of our production processes.

The main ethical responsibilities of the company with the workers and the community are:

Customers

- Feedback on the relationship with the client seeking the best possible technical and economic solution.
- Responsible use of information, thus guaranteeing confidentiality.

Employees

- The professionalism of the employees as a fundamental characteristic supported by efficient action focused on excellence and quality of service.
- Promote integrity among its employees in accordance with the ethical principles of good faith, honesty in management and the prohibition of bribery and corruption.
- Support the training and professional development of the people who are part of the company.
- Promote care for the safety and health of all the people who make up the company.

Providers

- Existence of specific standards and risk management, classification, approval and control systems for suppliers and subcontractors.

Environment

- Contribute to better management of natural resources and the environment, through innovation and raising employee awareness in order to minimize the negative impacts derived from our activity.

Quality

- The periodic establishment of quality objectives and the evaluation of their fulfilment.
- Actions aimed at improving the quality of the services provided.

Innovation

- Responsible investment, in order to promote research and generate patents and operational techniques in a constant and efficient way.
- Development of individualized strategic lines of research.

Social action

- Seek the equitable distribution of the wealth generated.
- Ensure the continuity of the company with the aim of achieving reasonable growth.
