

QUALITY POLICY

In APLICACIONES TECNOLÓGICAS, S.A. our highest priority is to provide safe and innovative products and services, with the highest manufacturing quality, that contemplate and even go further than the most demanding national and international regulations, obtaining the best guarantee for all the interested parties of our organization.

For this we rely on:

- The continuous improvement of quality
- Clients being the focus of our work
- The participation of all the company personnel in the solution of incidents
- The permanent development of our technical and operational capacity
- The identification, analysis and treatment of risks

All in order to:

- Achieve that our products and services be the best on the market
- Satisfy our customers
- Comply with all applicable requirements

Valencia, March 2024
