

MEDICAL DEVICE QUALITY POLICY

At APLICACIONES TECNOLÓGICAS, S.A., in the *importation, marketing, installation, commissioning and maintenance of medical technology equipment*, our top priority is to provide safe and innovative products and services, manufactured to the highest quality standards, that comply with and, where possible, anticipate the most stringent national and international regulations, thereby providing the highest level of assurance for all our stakeholders.

To this end, we are committed to:

- Continuous quality improvement.
- Placing customers at the centre of our work, with the aim of meeting established requirements and any other applicable requirements.
- The involvement of all company personnel in the resolution of incidents.
- The continuous development of our technical and operational capabilities.
- The identification, analysis and management of risks, with the aim of minimising them and, where possible, eliminating them.

All of this is aimed at:

- Providing our customers with a comprehensive product portfolio.
- Working towards the achievement of established objectives and, as a priority, maximising customer satisfaction.

The Management of Aplicaciones Tecnológicas, S.A. approves and endorses this policy and is fully committed to achieving an effective management system, providing the necessary means and resources to this end.
